THEME

In 100 words or less, describe the problem that you chose to address, and why you were interested in solving it. Please note that this portion of your submission will be published if you are selected as a finalist or winner.

I choose to address the health problem. Many people don't know what to do when a disease strikes, and the necessary precautions.
I choose to addressed it as people don't know about the new virus and diseases that attacked us so in this app i have also added an latest news option where person can know more about new diseases. Ex-Corona.
I was interested in solving it because i have seen many people don't know the precautions to be taken when a disease comes and gets captured by a virus or a disease.

Symptoms and Cure for Dengue:

Symptoms:
1. High fever
2. Severe headache
3. Pain behind the eyes
4. Joint and muscle pain
5. Rash
6. Nausea and vomiting
7. Fatigue

Cure:
1. Rest and hydration: Get plenty of rest and drink fluids to prevent dehydration.
2. Pain relievers: Use acetaminophen to control fever and reduce pain. Avoid aspirin or nonsteroidal anti-inflammatory drugs (NSAIDs) as they may increase the risk of bleeding.
3. Seek medical attention: If symptoms worsen or severe complications arise, such as severe abdominal pain, bleeding, or difficulty breathing, seek immediate medical care.
4. Mosquito prevention: Prevent the spread of dengue by avoiding mosquito bites and using insect repellent, wearing protective clothing,
