

ART-SCAPE

Team Member Name 1 - Purav Dawar

OVERVIEW

- App Name: Art-SScape
- App Description: In a nutshell my app is a social media for artists.
- Track: Youth Individual
- Category: Creativity, art and entertainment

THEME

In 100 words or less, describe the problem that you chose to address, and why you were interested in solving it. Please note that this portion of your submission will be published if you are selected as a finalist or winner.

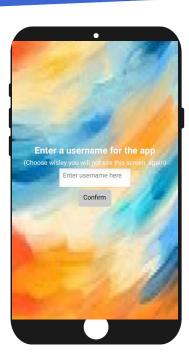

ArtScape fosters creativity, promotes art exploration, and connects artists and enthusiasts. It features a virtual art gallery, encourages connections among like-minded individuals, and democratizes art education. ArtScape aims to inspire users and enrich lives through the vibrant world of art and creativity. I chose to solve this problem to foster and promote creativity and because there is no platform for artists, and whenever an artist tries to jump-start their career, they are subdued by social media platforms.

INSTRUCTIONS

Starting scene click the button to advance forward

Put in the username to advance in the application , this will be used if you create a post

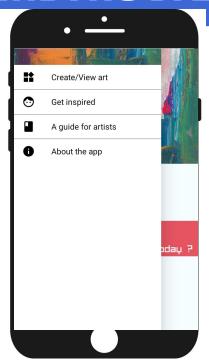

Hello, Purav ! What would you like to do today ?

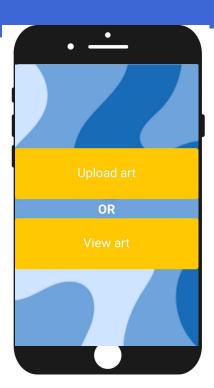

Click the hamburger icon to reveal a sidebar which can be used to advance

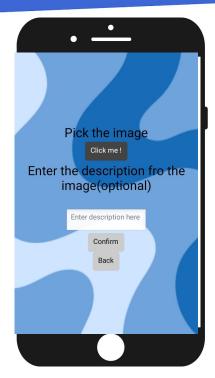

INSTRUCTIONS

With the side bar revealed you can choose any of the options

If you have chosen the create/view art option this is the first screen

If you choose upload art, you can upload your art-piece to the public wiht the select image option

INSTRUCTIONS

If you choose view art you can view others art

If you had chosen the inspire option you will be greeted with this screen , click the button to reveal a random quote

Take the time to define your unique style I and specialty. Consider what sets your work apart from others and what you are most passionate about creating. This will help you to focus your marketing efforts and reach your target audience.

Step 2:Establish a Business Plan

A business plan will help you to define your goals and objectives, as well as provide a roadmap for how you plan to achieve them. Include information on your target market, your competition/marketing startergy/finalprojection.

Step 3:Build Your Brand

Your brand is the public face of your business and it is important to establish a consistent image and message across all of your marketing materials. This includes your logo, business cards, website, and social media presence.

Step 4:Register Your Business

If you had chosen the guide option you will greeted with a guide on how to start

youre art carrier

LIMITATIONS

Limitation in my application

-In the cloud DB component only 2000 entries are supported and if there are more than 2 thousand entries they are deleted. So if a user has uploaded an entry and 2000 more people also upload an entry that users entry will be deleted.

-Images you upload are stored on the cloud and locally to show you on the first screen, so if you upload many images you're phone may get full quickly

ACKNOWLEDGEMENTS

Please list the names of anyone who helped you with developing your app, and describe what type of help they provided.

My father (Guided me on UI and UX)

D.James Thangamani(My computer teacher, guided me on testing and back end)

Payal Singh (Also my computer teacher guided me on UI)

Youtube(Helped me implement the social media aspect of my app)
