

GivingHub

Sanath Koundinya

Overview

- **App Name:** GivingHub
- **App Description:** One Stop App for Voluntary activities in the vicinity of your community / city.
- **Track:** Youth Individual
- **Category:** Civic engagement & justice.

Theme

Objective:

The *GivingHub* app serves as a remarkable platform bridging the gap between volunteer organizations and enthusiastic volunteers within the community. Its seamless interface empowers users to access and engage in diverse community service and charity initiatives.

Benefits:

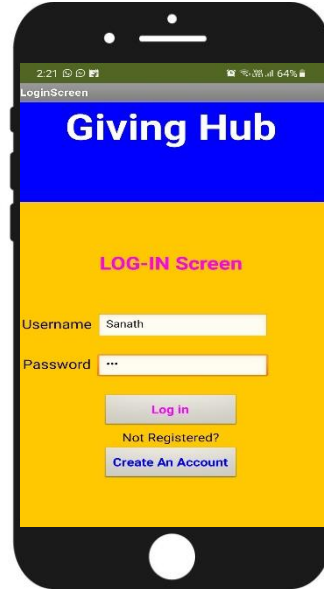

1. With a plethora of opportunities at their fingertips, volunteers can easily connect with causes they are passionate about, fostering a sense of fulfillment and purpose.
2. Organizations benefit from a larger pool of dedicated volunteers, augmenting their impact and reach.
3. Through this app, communities thrive as individuals collaborate for the greater good.
4. The GivingHub app stands as a beacon of unity, promoting altruism and transforming lives, one act of kindness at a time.

Instructions

Step 1: Welcome Screen

Step 2: Log in/Create An account screen

Step 3: Create New Event/Join Event

Instructions

Step by Step Instructions for screen navigation:

Step 3(II): Enter details about the event

Step 4: List of voluntary programs

Step 6: Thankyou Screen

Limitations

While the GivingHub Android app offers a commendable platform for connecting volunteers and organizations, it's essential for users to be aware of certain limitations.

1. Users must carefully verify the credibility of organizations to avoid potential scams.
2. The app's effectiveness depends on the accurate updating of information by organizations.
3. Users should also consider their safety while engaging with unknown organizations. Vigilance and cautious evaluation of opportunities are crucial when utilizing the GivingHub app.

Acknowledgements

- **Raksha Prashanth:** Immense help in introducing me to this Summer Appathon 2023 and registering me for the program and motivation to participate in it. My gratitude to my first mentor of my life my mother.
- **Supreeta Ma'am** (Computer Science Department, Class 10): Guidance w.r.t to System Thinking, Requirements elicitation and Designing methods.
- **Anjula Sharma Ma'am** (Computer Science Department, Class 10): Guidance w.r.t to System Programming.
