

READ INDIA READ

Anagha Shah

OVERVIEW

- **App Name:** Read India Read
- **App Description:** This app is aimed at increasing the reading levels of people especially after the drastic drop following the global pandemic.
- **Track:** Youth Individual
- **Category:** Education and Research

THEME

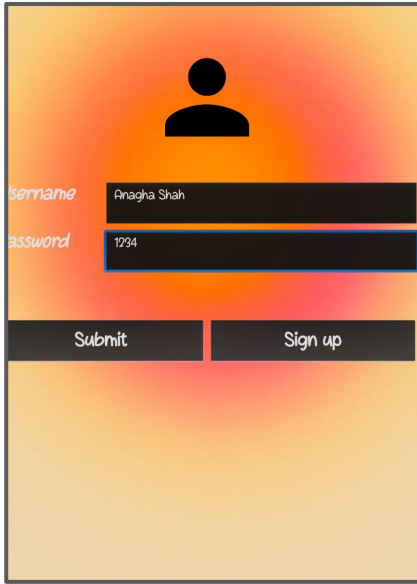

In 100 words or less, describe the problem that you chose to address, and why you were interested in solving it. Please note that this portion of your submission will be published if you are selected as a finalist or winner.

The global pandemic was an exceedingly challenging period for everyone, impacting various aspects of our lives, ranging from our mundane daily routines and education to even simple pleasures like reading.

Many countries all around the world including India have seen significant drop in the levels of reading after the pandemic – be it adults or students. Reading is paramount as it helps us develop a holistic view thereby enriching our lives. The main problem as I understand is that it is hard to practise consistency after experiencing a period of time where our attention span is so less and that is exactly what was tackled

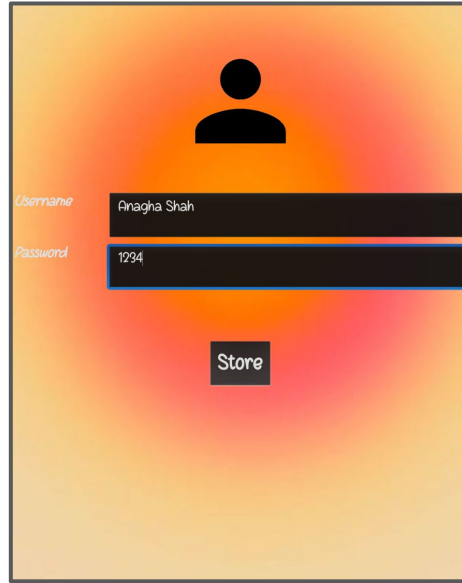

INSTRUCTIONS

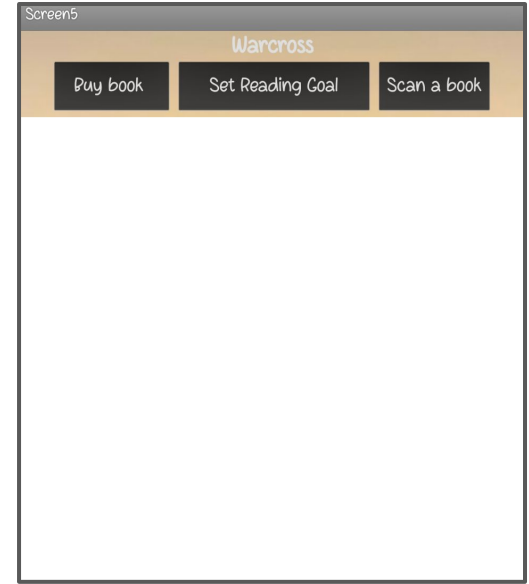

A login screen with a gradient background. At the top center is a black silhouette of a person. Below it are two input fields: the first is labeled "Username" and contains "Anagha Shah", the second is labeled "Password" and contains "1234". At the bottom are two buttons: "Submit" and "Sign up".

Step 1: Log In Screen

A sign-up screen with a gradient background. At the top center is a black silhouette of a person. Below it are two input fields: the first is labeled "Username" and contains "Anagha Shah", the second is labeled "Password" and contains "1234". At the bottom center is a button labeled "Store".

Step 2: Sign Up Screen

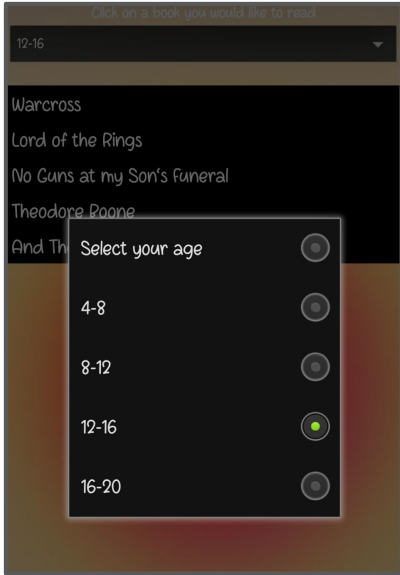

A screen titled "Screen5" with a header "Warcross". Below the header are three buttons: "Buy book", "Set Reading Goal", and "Scan a book". The main area of the screen is blank white.

Step 3: Selected book option

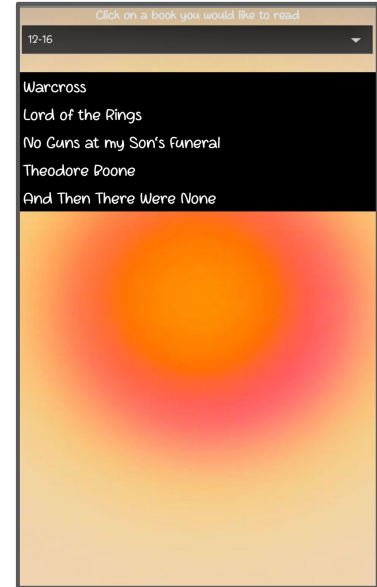

INSTRUCTIONS

Step 4: Age based recommendation

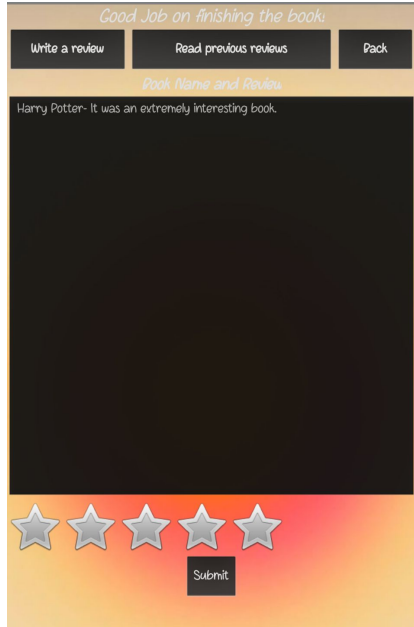

Step 5: Buy the selected book

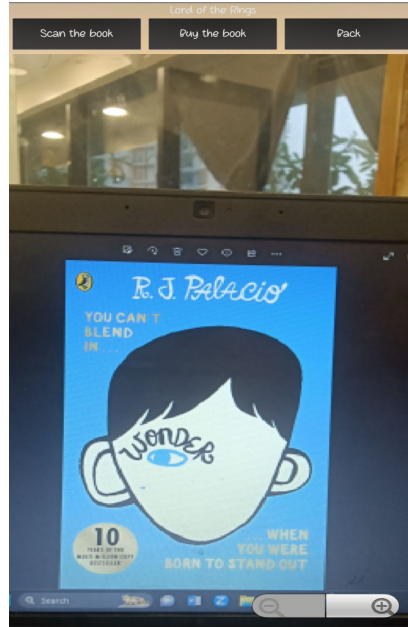

Step 6: Recommended books

INSTRUCTIONS

Step 7: Review Screen

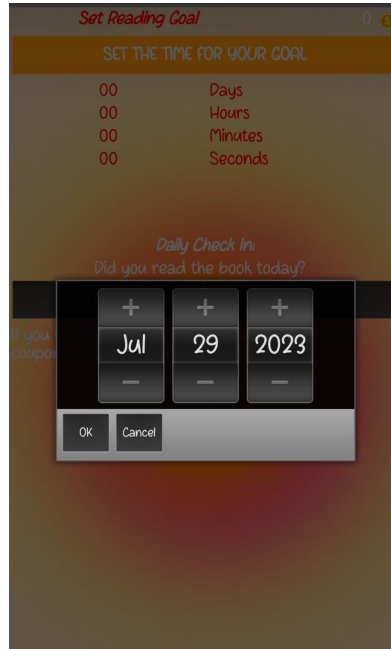

Step 8: Scan book to buy

Step 9: Book Review

INSTRUCTIONS

Step 4: Timer screen to finish the book

LIMITATIONS

When a new user enters the app they have to sign in and then log in again, they cannot directly go to the next screen.

It is vital to note that this app is simply a prototype and still has some small errors which we hope to solve.

ACKNOWLEDGEMENTS

- Reetu Jain: She guided me with the ways to enhance my project
- Suraj Tiwari: He helped me with the research for the project

APPENDIX

This app is paired with an initiative which I have launched called Read India Read. I hope to increase the reading levels after the drastic drop following the pandemic. I recently visited an NGO and conducted a survey with 9th and 10th grader students there asking them who all would be willing to use this app after explaining it's features. I received an overwhelming response.

THANK YOU
