OVERVIEW

- **App Name:** My Magical Drawing Pad.
- **App Description:** My app is based on Art and Entertainment. There are 3 main features in the app.
- **Track:** Youth individual.
- **Category:** Creativity, Art and Entertainment.

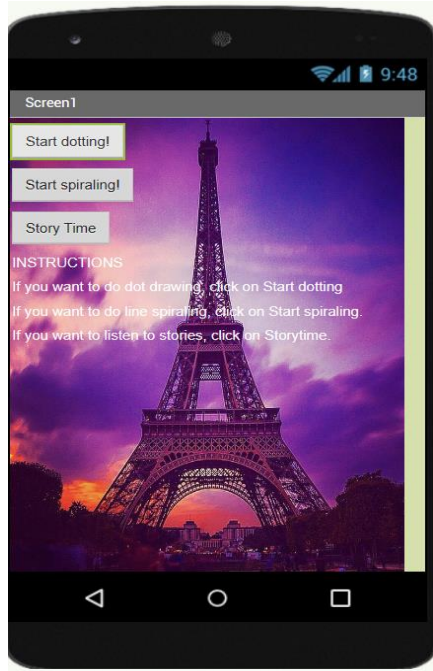

THEME

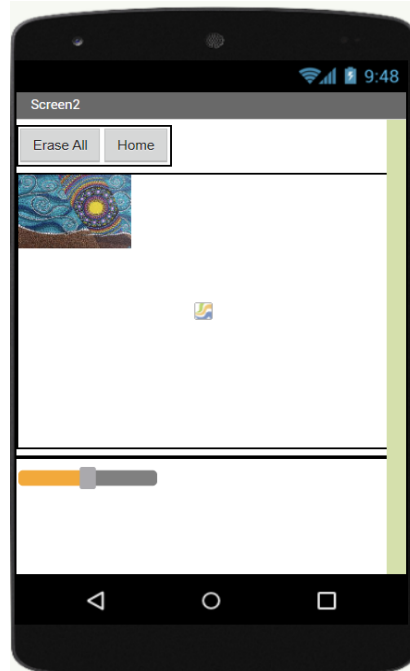

Many children are fond of art and doodling. For this, they will either go and take a piece of paper or a book. We all know that paper is not eco-friendly and we need to save trees and come up with solutions that are eco-friendly and allow children to explore their creative imaginations. So I came up with idea of this app that allows children to doodle and create different unique arts without use of paper. I was interested in solving this problem since I also am one of those children who loves art and doodling.

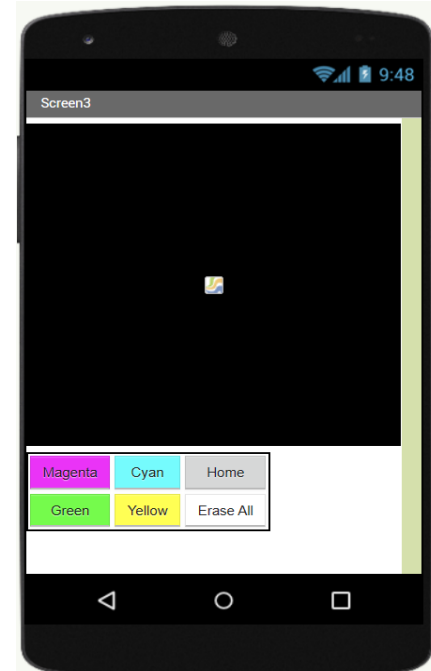

INSTRUCTIONS

Step 1: Read the instructions and choose what would you like to do.

Step 2: If you click on start dotting, you may start dotting on the white space.

Step 3: If you click on start spiraling, you may start spiraling.

INSTRUCTIONS

Step 4: If you want to listen to stories, click on Storytime

LIMITATIONS

Anything drawn/doodled in this app can not be saved.

In dot drawing, my app can only give you dots, there won't be any other shapes.

ACKNOWLEDGEMENTS

- Rahul Sir from Yolabs: by providing required guidance for my code, while the idea is mine.
